Offer the following unit of competency

TLILIC1309A: Prepare and transport dangerous goods by road

Link: <http://www.ntis.gov.au/Default.aspx?/trainingpackage/TLI07/unit/TLILIC1309A>

Description

This unit addresses the skills and knowledge requirements for a driver to obtain a licence ONLY for the transport of dangerous goods by road.

Application Of Unit

The unit covers preparing to comply with regulatory requirements and does not address all the skills for the transportation of dangerous goods. Upon achieving this unit and obtaining a licence, **further industry specific training is required by the Licensing Authorities** for the transportation of dangerous goods. We recommend TLID 2707D (<http://www.ntis.gov.au/Default.aspx?/trainingpackage/TLI07/unit/TLID2707D>) to provide this training.

Licensing/Legislative Requirements

The primary legislative requirements applicable to this unit of competency are State/Territory legislation in relation to Licensing based on Regulations including licensing and mandatory assessment requirements, the current Australian Code for the Transport of Dangerous Goods, by Road and Rail (ADG Code), relevant Australian Standards (AS) and relevant Occupational Health and Safety (OHS) legislation.

Outcomes

Successful candidates will be given the opportunity to widen their skills and be recognised in contributing to safer and more proficient operations in dangerous goods driving in the workplace. Successful candidates will be awarded a nationally recognised Statement of Attainment outlining the competencies assessed and completed and present the Statement of Attainment to obtain a dangerous goods licence from the licensing authorities (Competent Authorities).
